NORBERT SKWIERCZYNSKI

FULL-STACK DEVELOPER JUNIOR

As a self-taught Junior Frontend Developer, my passion lies in crafting visually appealing websites. Seeking to broaden my skill set and pursue a more comprehensive understanding of software development, I've recently enrolled in Le Wagon's full-stack bootcamp. This marks a pivotal step forward in my journey, as my ultimate goal is to evolve into a proficient Software Engineer.

EXPERIENCE

SELF-TAUGHT FULL-STACK DEVELOPER JUNIOR
2022 - Present

- With a good foundation in HTML, CSS, and JS, I bring valuable skills in web development. My experience extends to Web Performance Optimization, where I've honed techniques to enhance website speed and user experiences. This includes minimizing load times, optimizing images, and implementing lazy loading.
- I excel in Responsive Design, ensuring seamless user interactions across diverse devices. Proficient in version control systems like Git, I contribute to efficient collaboration and precise code tracking. To further strengthen my capabilities, I'm currently immersed in a full-stack learning journey at Le Wagon, making my skill set more comprehensive and consistent.

SEVERAL JOBS - SCOTLAND
2007 - Present

- My previous roles have honed my ability to effectively communicate with clients, demonstrating strong problem-solving skills, adaptability, teamwork, and exceptional time management. These experiences have equipped me with the expertise to resolve challenges efficiently and collaborate seamlessly within diverse teams

JATEX TECHNOLOGY - POLAND
2006 - 2007

- Working on forms where customer can order goods
- Updating HTML and CSS and basic JS when requested
